IPD

INDUSTRIAL POWER DRIVE

The benchmark in self-propelled slashing Mowers

Designed and manufactured in Australia for Australian conditions. The self-propelled IPD Slasher is designed to handle the toughest mowing conditions with ease and provides a fine finish on lawns.

With a low centre of gravity and pivoting front wheel, the IPD provides maneuverability and stability that is second to none.

Fitted with the turbo-chute 28" cut and perfectly matched to the powerful Briggs & Stratton 11.5 Hp Intek™ Series 344cc engine, the IPD is unstoppable.

Fully welded tubular steel chassis

The IPD is exceptionally well balanced due to design and engine positioning

Super low centre of gravity for maximum stability on slopes

Large pneumatic tyres

710mm (28") impact resistant alloy blade cover with a highly efficient turbo grass chute

Pivoting castor wheel for maneuverability

Heavy Duty Spindle

Semi High Tensile 4mm Steel Blade Holder with inexpensive long-life Swing Back Blades provides maximum protection from foreign objects.

11.5 Hp Intek Series 344cc engine

The powerful 11.5 Hp Intek™ Series engine delivers superior performance and durability.

Cutter Deck

Impact Resistant Rust Free Alloy Cutter Deck with "Turbo Chute" Grass Ejection System. Greenfield's unique cutaway front allows a clean cut in long and rough conditions.
